

# Four-Stroke Motorcycle Oils

## hyrax® 4T SPECIAL

### Description

**Hyrax 4T Special** series oils are specially formulated premium quality four-stroke motorcycle oils designed to prolong engine life, while providing extended drain capability and ultra-smooth, jerk-free riding performance.

**Hyrax 4T Special** is specially manufactured using carefully selected fluids of highly refined materials and high performance additives to provide exceptional engine protection and performance under all operating conditions.

### Applications

**Hyrax 4T Special** is highly recommended for most models of high performance air and water cooled four-stroke motorcycle engines including race tuned and turbo-charged engines. Also applicable for two-stroke motorcycle gearboxes.

### Benefits

- High level of engine cleanliness and wear protection even on extended drain interval
- Excellent gear micro-pitting and clutch slippage protection for outstanding performance response, acceleration and smooth riding
- Exceptional thermal and oxidation stability to resist oil breakdown, maintaining outstanding performance at high engine operating temperatures

### Typical Characteristics

Properties	Method	SAE 15W-40	SAE 20W-40
Density at 15°C, Kg/L	ASTM D4052	0.8653	0.8885
Flash Point, °C	ASTM D92	>210	>210
Pour Point, °C	ASTM D97	-25	-20
Viscosity at 40°C, cSt	ASTM D445	111.0	129.0
Viscosity at 100°C, cSt	ASTM D445	14.7	15.5
Viscosity Index	ASTM D2270	136	125

### Performance

- API SL
- JASO MA

Engine cleanliness and wear protection

Excellent gear micro-pitting and clutch slippage resistance

Excellent thermal and oxidation stability

Highly refined materials and high performance additives
