

Four-Stroke Motorcycle Oils

hyrax® 4T SCOOTER

Engine cleanliness and wear protection

Excellent gear micro-pitting and clutch slippage resistance

Excellent thermal and oxidation stability

Premium quality base oils and high performance additive

Description

Hyrax 4T Scooter is a high performance premium quality synthetic blend motorcycle oil specially designed for scooters, mopeds, ATVs and motorcycle engines fitted with automatic gear transmission system.

Hyrax 4T Scooter is specially manufactured using premium quality base oils and high performance additive system plus special friction modifier to provide exceptional engine power performance, excellent engine cleanliness, and outstanding protection for automatic gear transmission under all riding conditions.

Applications

Hyrax 4T Scooter is highly recommended for high performance air and water cooled four-stroke scooters, mopeds, ATVs and motorcycles fitted with automatic transmission system.

Benefits

- Exceptional level of engine cleanliness and wear protection even on extended drain interval
- Excellent gear micro-pitting for exceptional performance response, acceleration and smooth riding
- Exceptional thermal and oxidation stability to resist oil breakdown, maintaining exceptional performance at high engine operating temperatures

Typical Characteristics

Properties	Method	SAE 10W-40
Density at 15°C, Kg/L	ASTM D4052	0.860
Flash Point, °C	ASTM D92	>228
Pour Point, °C	ASTM D97	-33
Viscosity at 40°C, cSt	ASTM D445	98.0
Viscosity at 100°C, cSt	ASTM D445	14.1
Viscosity Index	ASTM D2270	147
