

Passenger Car Motor Oils

hyrax[®] PLATINEUM HS

Note:

All information supplied by or on behalf of Hyrax Oil in relation to its products, whether in the nature of data, recommendations or otherwise, is supported by rigorous laboratory work and research and believed to be reliable. Typical test data are average values only. Minor variations to typical properties not affecting the performance of the product are to be expected in normal manufacturing circumstances.

Environmentally friendly

Ultimate engine wear protection

Excellent piston deposit control

Excellent fuel economy benefits

Description

Hyrax Platineum HS is the ultimate-performance environmentally friendly fully synthetic multigrade motor oil that is specially engineered for those who demand the absolute best in motor oil lubrication technology that exceeds OEMs requirements and the latest API SN specification. It is engineered with premium synthetic base fluids and environmentally friendly advanced additive systems to provide excellent fuel economy, increased emission control system durability, excellent deposits and sludge control as well as ensuring excellent wear protection to critical engine parts.

Applications

Hyrax Platineum HS is highly recommended for all type of passenger cars especially current and future model high performance cars fitted with emission control devices, fuel injections, turbochargers, super-charger and multi-valve engines fuelled by gasoline, diesel, LPG and Flexible Fuel Vehicles (FFV). Also suitable for engines requiring API SM, SL, SJ, SH, SG and below performance levels.

Benefits

- Optimize and boost engine power output to provide better engine response and acceleration
- Ultimate engine wear protection and performance even at extreme driving conditions
- Excellent piston deposit control and exceptional cleanliness of critical engine parts to maximize engine performance
- Resists viscosity and thermal breakdown even in the most extreme and extended drain service
- Excellent fuel economy benefits

Typical Characteristics

Properties	Method	SAE 0W-20
Density at 15°C, Kg/L	ASTM D4052	0.843
Flash Point, °C	ASTM D92	>200
Pour Point, °C	ASTM D97	-42
Viscosity at 100°C, cSt	ASTM D445	8.1
Viscosity Index	ASTM D2270	190
Total Base Number, mgKOH/g	ASTM D2896	8

Performance

- API SN
- ACEA C5
- Mercedes-Benz MB p229.71
- Jaguar Land Rover STJLR.51.5122
